256 unique systems scored
(six substrates, 0–5 ruler)
130 in the first pass, +126 in the second
core corpus: 204
(score ≥ 3 on
some substrate)
contrast: 52
(fails the
first filter)
composite two-loop audit: 202 of the 204 core systems
+ 4 research systems classified from papers alone
(local loop from session signal; promotion
across contexts with versioning or lineage)
pass: 11 research
+ 3 industry
exemplars
promote with no lineage: 6
(fail the audit on
governance alone)
